Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-2, drawn to a method for treating ocular disease comprising administering a nitroxide containing compound or a polyhydroxy acid containing compound.

It is noted that the claims are confusing as it is recited as both a single and a plural (e.g. "a nitroxide containing compounds". For purposes of furthering prosecution, it is interpreted as a single compound due to recitation of "a" being first in the claim language.

Group II, claims 3-4, drawn to a method for treating ocular disease comprising administering a nitroxide containing compound and a polyhydroxy acid containing compound.

Group III, claims 5-6, drawn to a method for preventing ocular disease comprising administering a nitroxide containing compound or a polyhydroxy acid containing compound.

It is noted that the claims are confusing as it is recited as both a single and a plural (e.g. "a nitroxide containing compounds". For purposes of furthering prosecution, it is interpreted as a single compound due to recitation of "a" being first in the claim language.

Group IV, claims 7-8, drawn to a method for preventing ocular disease comprising administering a nitroxide containing compound and a polyhydroxy acid containing compound.

Group V, claims 9-10, drawn to a composition comprising a nitroxide containing compound, a polyhydroxy acid containing compound, and a pharmaceutically acceptable vehicle.

2. The inventions listed as Groups I -V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

There is no technical feature linking Groups I – V.

Group I and Group III are linked by having a composition comprising a nitroxide containing compound or a polyhydroxy acid containing compound. Group II, Group IV, and Group V however are to a composition comprising a nitroxide containing compound and a polyhydroxy acid containing compound.

Therefore, there is no technical feature linking the inventions of Groups I – V and does not define a contribution over the prior art.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
